

# TEAM WAITT: WHAT WE DO AND HOW

		
 <b>VISION</b>	Restore our oceans to full productivity.	Empower communities to restore their ocean.
 <b>WHAT WE DO</b>	Grant making foundation: funds conservation, philanthropic grantmaking, and development of public-private partnerships.	Operating foundation: does conservation, partners with governments and communities and provides tools for sustainable ocean management.
 <b>FOCAL SOLUTION</b>	Large-scale marine protected areas as a fisheries management tool.	Ocean zoning and fisheries regulations, to ensure sustainable goals.
 <b>APPROACH</b>	Assist governments in achieving their ocean conservation goals, by supporting scientific research and policy development.	Comprehensive, science-based, community-driven ocean management via public-private partnerships.
 <b>FISHERIES</b>	Work on small-scale fisheries at scale.	Support small-scale fisheries at project sites.
 <b>INVESTING STRATEGY</b>	Philanthropic leverage for maximizing impact through coordinated funding with philanthropists, foundations, and aid agencies.	Fund policy development phase and provide support for early implementation. Assist with creation of financial plan for long-term implementation.
 <b>KEY OUTCOME</b>	Marine reserve establishment.	Implementation of sustainable ocean policies.
 <b>SCIENCE</b>	Conservation expeditions on Waitt research vessel, and funding for academic research.	Ecological assessments, habitat mapping and long-term scientific monitoring.
 <b>COMMUNICATIONS</b>	Behind the scenes, supporting and coordinating outreach and media for grantee projects.	Highly visible outreach on work of Institute, our partners, and ocean solutions generally.
 <b>PRINCIPAL METRIC OF SUCCESS</b>	Area of ocean protected in no-take marine reserves.	Area of ocean zoned and sustainably used, healthier ecosystems, benefits to local communities.
